

Advanced Data Wipe Software

Completely **Erase Sensitive Data**
From Disk Drives & More.

100% SECURE & CERTIFIED PRODUCT SUITABLE FOR PERSONAL, BUSINESS, GOVERNMENT ENTITIES, LAW ENFORCEMENT, AND OTHER INSTITUTIONS.

DELETE “SENSITIVE AND CONFIDENTIAL” FILES, DOCUMENTS, APP TRACES, INTERNET HISTORY, ETC.

This quick and safe data-wiping program ensures that no traces of destroyed data will ever be discovered. It wipes files from all Windows PCs and external storage devices. The user-friendly interface makes it possible for anyone to use this DIY software to completely delete files. You can erase private and sensitive digital information using this tool, including identity documents, bank statements, pictures, movies, other personal files, app traces, internet history, etc.

It's possible to recover data even if it's deleted! Thus, make sure it's removed permanently.

BITWIPE COMPLETELY WIPES DATA FROM NEARLY ANY DEVICE

Wipe Email Files & Browsing History

Cleans your sensitive email files and browsing history including cached images & files, cookies, and other site data permanently.

Remove Volumes Data

Easily and safely delete logical drives or volumes without damaging operating system files and applications.

Erase A Specific File or Complete Data

Use two modes “Select File” or “Choose Add Folder” to remove individual files or entire folder data respectively.

Delete Unused Space

The software erases the deleted files from the free space present on your storage, making it impossible to restore any sensitive data.

10+ Storage Wiping Methods

BitWipe comes with 10+ data wiping techniques for writing sequences of 0s & 1s, like DoD, NATO, Peter Gutmann, etc.

Report & Certification

After performing data wiping, it generates a Saving log report that gives an assurance that your data has been successfully wiped.
